Carve out about 2 hours to go through this training. You may not want to do it all in one sitting as it can be very overwhelming. If you feel a sense of overwhelm, just know that this is normal.

Resist the overwhelm. The good news is that you don't have to master EVERYTHING in this training in order to succeed online. If you can just get your pages set up and master one traffic strategy, you'll do great online. So just pick the best traffic strategy for you. And focus on mastering that ONE strategy.

Hope this gets you off to a good start.

Let me know if you have any questions.

Thanks,
